Introduction

Amino is an Afghan owned and Expat managed business, is an established and confident company, steeped in government service, contract support and logistics management. Our company leadership and management personnel combine global reach with local knowledge, to deliver tailored transportation solutions you can rely on.

Amino has been a reliable and trusted partner of many governmental and non-governmental organizations supporting both the US and NATO missions in Afghanistan. Amino's principal goal is to exceed the expectations of every customer by offering quality vehicles and services, proactive customer service, and on time, reliable delivery with the flexibility necessary to accommodate changes in specification requirements and quantities ordered.

We offer the best value for your vehicle requirements through the combination of our expert operations and support personnel, and our trained expert mechanics who keep our vehicle fleet running at optimal performance.

The Amino Advantage

Amino's approach to providing vehicle leasing services begins with effective start-up and management approach to establish an organic transportation capability, in line with our client's timeline and schedule. Our internal controls and systems provide tailored solutions for meeting the schedules and requirements of your project.

Our Vision

Amino's principal goal is to be the premier armored vehicle provider serving companies and nation's militaries in direct support of the NATO Mission in Afghanistan. Supported by our Client Focused - Impact Driven personnel, we are passionate about providing high quality vehicles and support that meets or exceeds your expectations for every vehicle delivered.

Our Commitment

We serve, as experts in vehicle lease and purchase flexible, reliable and skilled professionals enhance value, streamline performance, and reduce costs for our clients.

Mission Reliable Late Model Vehicles

We provide only high-quality vehicles and personnel to support your mission. Amino offers the most competitive rates and the highest quality of Lease & Sales services offering a large fleet of both Armored and Soft Skin Vehicles. With Amino, you get more for your money, plus the personal attention and quality service you deserve. You will not find a better combination of price, quality and service as offered by our company.

Vehicle Sales & Lease

Amino Logistic Services is focused on a process-oriented, cost effective vehicle sales and lease approach. We offer a full-spectrum of support to meet your movement and transportation requirements, and are performing these tasks for a large customer base throughout Afghanistan today.

Mission Statement

Maintain our success through steady investment in our service expansions, innovations, and employees while we focus on exceeding our customers expectations daily, through total quality management by providing cost effective and sustainable vehicle maintenance solutions.

Armor Package Details & Specifications

Amino is Afghanistan's premier vehicle lease and services company. We maintain our own vehicle fleet with inventory in Kabul, with an organic ability to securely transport and transfer vehicle inventory to regional locations including; Kandahar, Herat, Mazar and Jalalabad. Amino vehicle availability includes several makes and models, however we use the B6 Armored Toyota Land Cruiser (TLC) as our base model.

 **TOYOTA**
GENUINE PARTS

Armor Package Details & Specifications

Amino provides armored vehicles that meet stringent criteria and specifications, and are factory armored typically by either IAG or Streit Group. Each Amino supplied under our contracts is inspected both mechanically and administratively prior to delivery.
