EFFICACY

Our Motto

PERFORMANCE

Founded in 1984, GoldenMed Hospitech Co., Ltd. Is an international modern Hi-tech trader providing a list of variety medical equipment, mobility devices, ultrasound Optical devices and patient monitor solutions, and intelligent Home-care products.

A PANDEMIC DEFENDER

As a leading medical device corporation with a strong sense of mission, GoldenMed provided their technologies, services and devices to the hospitals and medical institutions, assisting China to fight against the pandemic. In the period of fighting, GoldenMed provided over 14,000 medical devices to the nation and it kept manufacturing the devices and offering the services with no holiday to against the COVID-19, becoming a striker in the combat of anti-pandemic.

THE DESIGNATED DEFENDER

In the fight against Covid-19, the global health emergency outbreak in China, GoldenMed has started to assist the hospitals and medical staff in the middle east with thousands of medical devices and supplies.

To defeat this global health emergency, the Kingdom of Saudi Arabia specified GoldenMed as their medical assistance manufacturer and donated 777 medical devices that all Distributed by GoldenMed to the Middle East.

US Exports

Exports efficacy through medical devices that supports clinicians day-day work-flow clinical trial supplies (CTS) to hospitals, Pharmaceutical around the world and supported by the best access to medicines from the US market.

The US Exports division sources US pharmaceuticals and medical devices for export across the globe.

The CTS service distributes and stores unlicensed and development products to the required locations, including any required placebo products while advising on the use of excess medicines.

The US Exports service excels in supporting customers from the very start of the ordering process with all queries thanks to detailed unlicensed product knowledge across its teams.

Within this service, GoldenMed Hospitech holds a 3PL license which is regarded highly by the manufacturers the team engages with.

Our US Exports service is known for delivering an excellent customer experience, through advanced regulatory knowledge and fast response times, ensuring that all customers receive timely communications on any orders alongside expert advice on any queries.

Underpinned by quality, reliability and urgency, our US Exports service is dedicated to delivering excellence, with improving the lives of those with an unmet medical need at the heart of the offering.

Offering a competitive price and added value service, GoldenMed Hospitech has an unrivaled service offering, complementing our expertise in providing Authenticity as a upholder of service and performance built on quality, reliability, and urgency.

Efficacy Provision is the second of two promises which GoldenMed Hospitech offers to the American and Middle East markets, as a specialist distributor of devices, and incontinency care drugs.

About GoldenMed Hospitech?

We are leading trader and providers of medical products, devices with authenticity of efficacy and performance . We pride ourselves on being a long-term partner for both healthcare professionals and manufacturers.

GoldenMed Hospitech team specializes in the sourcing and distribution of products across the world, focusing on UK, EU, and US markets.

We have developed lasting relationships with a large network of pharmaceutical manufacturers to allow us to offer our customers access to medicine from around the globe , with the ability to source and distribute products to over 160 countries.

Quality

Ensuring that quality is guaranteed through every step, from initial conversation to delivery of the product

Reliability

Going the extra mile for our customers and never letting them down - we are known for our reliable service

Urgency

Understanding the urgency needed with the supply of medicines, we combine speed with access to provide life-changing solutions

Our team at GOLDENMED HOSPITECH are committed to delivering a high quality, reliable service that provides our customers with access to pharmaceutical products and devices from around the globe.

Top-notch Sourcing

GoldenMed Hospitech medical Solutions are top-notch imported products into any that are not currently available or are unlicensed for patients that have an unmet medical need.

The service provides access to products for both named patients and cohorts of patients, particularly for healthcare professionals within hospitals.

The Pharmaceuticals Services department has a vast network of manufacturers, global distribution capabilities and multi-territory knowledge, ensuring a reliable product delivery service.

We genuinely care about the outcome of our Pharmaceutical Services, are passionate about improving the lives of those who cannot access the medicine they need, and understand the speed and urgency needed for every order.

When importing products from overseas, we take full responsibility for gaining authorization through permission requests and sourcing all technical information required.

We are committed to evolving in line with the need of our customers, such as by offering an overlabelling and translation service, alongside an e-commerce platform to provide increased convenience.

Building a positive rapport with our customers for over 50 years, our Pharmaceutical Services underpins GoldenMed Hospitech as a leading provider of access to unlicensed pharmaceutical products.

International Sales

The International Sales Division within GoldenMed Hospitech sources and supplies pharmaceuticals and medical devices across the globe.

Whether you work in a hospital, pharmacy, wholesale or government agency, we provide a highly bespoke offering, catering for all shipping and packaging requirements.

The teams within the International Sales service can offer assurance and guidance, ensuring compliance with specific regulations that are relevant to the receiving country.

Understanding the urgency and need for the products we distribute, GoldenMed Hospitech Access works to exceed expectations around speed, reliability, and quality of deliveries, supported with frequent communications at each step of the shipment process.

Through our network of manufacturers and strong relationships, we provide a single solution through our International Sales offering, alleviating the need for multiple providers.

GoldenMed Hospitech Access delivers high quality across the full service, from shipment and packaging capabilities through to offering a completely personal experience, supported by an expert team of Customer Experience Technicians.

GoldenMed Hospitech delivers high quality across the full service, from shipment and packaging capabilities through to offering a completely personal experience, supported by an expert team of Customer Experience Technicians.

Optical Health Supplies

GoldenMed Hospitech runs a successful Optical Health Supplies division.

The Vendors offers a wide range of high quality ophthalmic devices throughout the UK, to General Practitioners and clinics, with competitive prices and value for money.

This is supported by GoldenMed Hospitech excellent distribution and warehousing capabilities, ensuring that orders can be fulfilled quickly, and products are delivered on time.

For our Optical Health Supplies service, we engage with the NHS to provide products through CASH clinics and Ophthalmic centers in addition to a small number of GPs.

GoldenMed Hospitech is the only company to hold the license for two cataracts surgery products, one of which is extremely cost effective and can be provided by a nurse at a local GP instead of in theatre - revolutionizing the procedure and time efficiency.

Having strong relationships with charities and healthcare professionals, the Sexual Health Supplies division strives to provide education and guidance on the products, providing added value alongside a quality service.

The service area continues to develop methods for ordering products and engaging with customers to provide the utmost convenience - adapting to the changing pharmaceutical market.

Clinical Trial Supplies

GoldenMed Hospitech Access offers global distribution within our Clinical Trial Supplies service to supply products in all stages of the clinical trial/development process.

This service is primarily provided within the EU and US and offers a flexible scale based on customer needs, from supplying products at lab development through to phase 3 clinical trials with thousands of patients.

Through our superior warehousing capabilities, we can source and store products across the UK, EU, and US when in need of multiple clinical trial sites.

With multi-territory knowledge and an expert team of Customer Experience Technicians on hand, GoldenMed Hospitech Access also provides valuable support around compliance, regulatory information, and guidance on how to use excess product.

Through Clinical Trial Supplies service, we engage with key stakeholders within pharmaceutical companies, who specifically value competitive pricing, service levels, response times and product availability in this area.

We have developed excellent relationships with manufacturers to be able to offer the ability to source multiple origins of products through our established global network.

Within the Clinical Trial Supplies market, GoldenMed Hospitech competes against providers that can offer the largest quantities for the most competitive price.

Established for over 50 years and known in the market for our heritage, GoldenMed Hospitech offers a compelling proposition for Clinical Trial Supplies through global distribution and warehousing options, multi-territory knowledge and competitive pricing, underpinned by a service built on quality, reliability, and urgency.

GoldenMed headquarters donated 400 wireless thermometers and patient monitoring systems to the Sharjah city's hospitals and medical foundation.

GoldenMed branch offices in each province over China donated the Pulse oximeters to several hospitals to help the clinicians to determine the patients' hypoxemia state.

The subsidiaries of GoldenMed donated 15 batch of medical materials like goggles, masks and disinfectant to Medical security administrations and hospitals in different provinces.

15 batches of
Medical Materials

Dialysis
concentrates

GoldenMed and each dialysis subsidiary worked day and night to manufacture the dialysis powders and liquid concentrates to the hospitals, treating the dialysis patients in this special Period, especially the middle east city's hospitals.

Delivered the Medical supplies to the front-line
