All dimensions are in meters.

## ROOF SECTION

### SPECIFICATIONS:

- All dimensions are in meters.
- The T-Iron profiles for the shelter's roof are 13.40 meters long in total, with a total of 11 profiles.
- The ceiling bricks should extend adequately onto the walls, with a minimum extension of 10 cm.
- The waterproof nylon cloth should be stitched together.
- Pure gypsum grout should be applied to the ceiling without any additives or mixtures.

All dimensions are in meters.
