2. Scope of Civil Work

- The cost includes construction 40 borewell in Wardak, Province along with applicable taxes.
- **MAXIMUM TIME-FRAME FOR COMPLETION OF WORKS:** The construction of 40 borewells must be completed in six months and will start after from the sign of contract.
- **Pump Installation:** Install a suitable pumping system. Ensure the pump is properly sized and installed according to the project requirements.
- Backfilling around a large-diameter pipe is an essential operation, and it is imperative for the contractor to ensure that it is done properly to a height of 1 meter above the water level.
- If the company does not finish the activities on time, the delay damage percentage is 0.01% of the total contract amount per day of delay.
- The contractor encounters a situation where any designated location indicates potential success for the DWs project by drilling beyond the estimated depth of 50m, MHI-Afghanistan is amenable to considering such cases. The assessment will take into account locations where the water level is higher, potentially leading to project success at depths lower than 50m, and flexibility exist in MHI-Afghanistan for this change.
- The contractor is required to inspect all designated locations chosen by MHI-Afghanistan in close collaboration with respective PRRD offices to ensure the successful execution of the project.
