#### 1. Introduction

Muslim Hands International – MHI is an Afghanistan Relief and Development NGO, established in the United Kingdom in 1993 with the objective of providing relief and emergency services and long-term sustainable development projects in a cultural, ethical, effective, efficient and transparent manner. Muslim Hands works both directly and with partners in over 50 countries worldwide carrying out short and long-term projects in emergency relief, Health, WASH, Education, Protection, shelter, safe water, and TVET programming and a particular intervention of Advocacy and Peace in Afghanistan only. Muslim Hands Afghanistan has been awarded Investor in People (2000, 2004 & 2007) and also been accredited with Quality Management Systems Standard ISO 9001:2000. The organization is also a signatory to the Afghanistan Federation of the Red Cross and Red Crescent Movement, and various NGOs in Disaster Relief and the main sources of funding of the organization are individual donors, trusts, institutions and DFID.

Muslim Hands Afghanistan obtained formal registration from the Ministry of Economy in Afghanistan with registration No. 141 in 2005 and is now firmly established with its Headquarters in Kabul and is fully engaged in relief and development activities in different parts of the country. The work of Muslim Hands in Afghanistan involves, improving the lives of poor and vulnerable through the provision of education, health, WASH, Protection, Livelihood, advocacy, Agriculture and other specialized projects e.g., rehabilitation of the disabled, water purification and sanitation schemes, orphan sponsorship scheme, income generation activities and emergency aid / relief activities in Afghanistan. The Afghanistan head office operates in 21 provinces through head office in Kabul and regional and provincial offices in the respective regions and province of Afghanistan.

MUSLIM HANDS AFGHANISTAN wishes to commission the team member to render services in the aforementioned field due to the knowledge and experience of the Project.

## 2. Scope of Civil Work

- The cost includes construction 30 borewell in Kapisa, Province along with applicable taxes.
- MAXIMUM TIME-FRAME FOR COMPLETION OF WORKS: The construction of 30 borewells must be completed in six months and will start after from the sign of contract.
- Pump Installation: Install a suitable pumping system. Ensure the pump is properly sized and installed according to the project requirements.
- Backfilling around a large-diameter pipe is an essential operation, and it is imperative for the contractor to ensure that it is done properly to a height of 1 meter above the water level.
- If the company does not finish the activities on time, the delay damage percentage is 0.01% of the total contract amount per day of delay.
- The contractor is required to inspect all designated locations chosen by MHI-Afghanistan in close collaboration with the respective PRRD offices to ensure the successful execution of the project.
- If a contractor encounters a situation where any designated location indicates potential success for the DWs project by drilling beyond the estimated depth of 50m, MHI-Afghanistan is amendable to considering such cases. The assessment will take into account locations where the water level is higher, potentially leading to project success at depths lower than 50m, and flexibility exists in MHI-Afghanistan for this change.
- The work will be adjusted during the implementation of the project, if somewhere the water level is 45 meters, we will dig the well at 60 meters, and if the water level is 15 meters, we will dig it at 40 meters.
- If the place of work is normal, the contractor will work as usual, and if there are any problems in the location, the contractor will contract MHI-Afghanistan before starting or relocating the machine. If after our permission the well fails, MHI will have reaction rules and regulations in this regard.
- Preference will be given to vendors with experience in digging wells.
- The exact location, GPS point, and Hand Pump Apron details have been attached for your reference.
