Organizations who fail to provide an Unique Entity ID (SAM) will not receive an award and DAI will select an alternate vendor/subcontractor/grantee.*

#### Background:

#### Summary of Current U.S. Government Requirements - Unique Entity ID (SAM)

Effective April 4, 2022, entities doing business with the federal government will use the Unique Entity Identifier (SAM) created in SAM.gov. The Unique Entity ID (SAM) is a 12-character alphanumeric value managed, granted, and owned by the government. This allows the government to streamline the entity identification and validation process, making it easier and less burdensome for entities to do business with the federal government.

Entities are assigned an identifier during registration, or one can be requested at SAM.gov without needing to register. Ernst and Young provides the validation services for the U.S. Government. The information required for getting a Unique Entity ID (SAM) without registration is minimal. It only validates your organization's legal business name and address. It is a verification that your organization is what you say it is.

The Unique Entity ID (SAM) does not expire.

#### THE PROCESS FOR OBTAINING AN UNIQUE ENTITY ID IS OUTLINED BELOW:

1. Have the following information ready to request a Unique Entity ID (SAM)
  - a. Legal Business Name
  - b. Physical Address (including ZIP + 4)
  - c. SAM.gov account (this is a user account, not actual SAM.gov business registration).
    - i. **As a new user**, to get a SAM.gov account, go to [www.sam.gov](http://www.sam.gov).
      1. Click "Sign In" on the upper right-hand corner.
      2. Click on "Create a User Account"

3. Choose Account Type:
  - a. Create an Individual User Account to perform tasks such as register/update your entity, create and manage exclusion records or to view FOUO level data for entity records.
  - b. Create a System User Account if you need system-to-system communication or if performing data transfer from SAM to your government database system. Complete the requested information, and then click “Submit.”
4. Click “DONE” on the confirmation page. You will receive an email confirming you have created a user account in SAM.
5. Click the validation link in the email that contains the activation code within 48 hours to activate your user account. If the email link is not hyperlinked (i.e., underlined or appearing in a different color), please copy the validation link and paste it into the browser address bar. You can now register an entity.

NOTE: Creating a user account does not create a registration in SAM, nor will it update/renew an existing registration in SAM.
2. Once you have registered as a user, you can get a Unique Entity ID by selecting the “Get Started” button on the SAM.gov home page.

3. Select “Get Started” on the Getting Started with Registration page.

4. Select “Get Unique Entity ID” on the Get Started page.

## Get Started

### Register Entity

An entity registration allows you to bid on government contracts and apply for federal assistance. As part of entity registration, we will assign you a Unique Entity ID (SAM).

Comprehensive and current entity information is an essential part of the federal award process. It is important to prepare your information and allow sufficient time to understand and accurately complete your registration. You only need to complete and manage it here to remain eligible for federal awards.

You must renew your registration every 365 days for it to remain active.

### Get Unique Entity ID (SAM)

If you only conduct certain types of transactions, such as reporting as a sub-awardee, you may not need to complete an entity registration. Your entity may only need a Unique Entity Identifier.

You can get a Unique Entity ID (SAM) for your organization without having to complete a full entity registration.

[Get Unique Entity ID](#)

#### 5. Enter Entity Information.

- a. If you previously had a DUN Number, make sure your Legal Business Name and Physical Address are accurate and match the Entity Information, down to capitalization and punctuation, used for DUNS registration.

#### 6. When you are ready, select “Next”

#### 7. Confirm your company’s information.

- a. On this page you will have the option to restrict the public search of this information. “Allow the selected record to be a public display record.” If you uncheck this box, only you and the federal government users will be able to search and view the entity information and entities like DAI will not be able to independently verify that you have an Unique Entity Identifier (SAM).

 **Allow the selected record to be a public display record.**

If you feel displaying non-sensitive information like your registration status, legal business name and physical address in the search engine results poses a security threat or danger to you or your organization, you can restrict the public viewing of you record in SAM's search engine. However, your non-sensitive registration information remains available under the Freedom of Information Act to those who download the SAM public data file. [Learn more about SAM public search results](#)

8. When you are ready, select “Next.”
