THIS SOLICITATION DOES REQUIRE A VENDOR ATTESTATION, AS DETERMINED BY MSH PROCUREMENT STAFF

The Goods / Services being solicited are related to networking, communication, or surveillance devices of the type described under Section 889 of the FY19 National Defense Authorization Act or directly relate to the performance of a Government contract.

Please read, complete and sign the form below and include it in your response.

Attestation of NDAA 889 Compliance

On behalf of [CONTRACTING ENTITY], I attest that [CONTRACTING ENTITY] has conducted a review of the devices, components and/or services being offered to Management Sciences for Health (MSH) in response to this RFQ/RFP and have determined that none of them contain or rely on “covered telecommunications equipment or services,” as defined under Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 and implementing regulations.

Prohibited telecommunications and security equipment and services include those produced or provided by any of the following:

1. Huawei Technologies Company
2. Dahua Technology Company
3. Hangzhou Hikvision Digital Technology Company
4. Hytera Communication Corporation
5. ZTE Corporation
6. Any subsidiary or affiliate of the above entities

Company Name: _____

Responsible Party: _____ Title _____

Signature: _____ Date: _____

Background and Requirements of Section 889 of the FY19 National Defense Authorization Act

Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. No. 115-232) places restrictions on U.S. Government’s ability to contract with entities that provide or use certain Chinese telecommunications equipment or services based on U.S. national security concerns.

Covered telecommunications equipment or services are defined as all telecommunications equipment or services produced or provided by Huawei Technologies Company or ZTE Corporation, and video surveillance and telecommunications equipment or services produced or provided by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company, or any subsidiaries or affiliates of those entities.

This prohibition applies to all U.S. Government contractors, domestic and international, even if that company is not specifically selling telecommunications equipment or services to the U.S. Government. As a prime contractor, Management Sciences for Health (MSH) is prohibited from providing any telecommunications equipment or services under any prime contracts or subcontracts to the U.S. Government and from using any telecommunications equipment or services under Section 889. MSH must conduct a reasonable inquiry of the suppliers

and service providers that provide telecommunications equipment and services to MSH, regardless of whether that equipment or service is used by MSH as part of its work for the U.S. Government.

Accordingly, MSH is seeking information in certain cases as to the source of supply of telecommunications equipment and services provided to MSH by its subcontractors, suppliers, and vendors.
