

Technical Specifications- NFI

Family Module				
NO	Type	Items	Specifications	Photo
1		Cooking pot	Aluminum non-stick cookware, with two handles, 6 liters, Diameter 26.2 cm. Height: 5.8 cm. 2.1 mm	
2		Pressure Cooker	liter, Net Weight 4Kg+ including lid, handle and rubber, Thick- ness 1mm	
3		Tea Pot/Kettle	Capacity:3 litre, Aluminum, 1.45 mm, Weight:830g - 840g	
4		Kitchen Knife	Stainless steel, medium size, 0.74 mm, strong enough for all sort of kitchen use with cover	
5		Serving spoon	Stainless steel, large size deep spoon, with strong steel handle. 38 cm, 0.12 kg, 0.87 mm	
6		Stainless Steel Mugs	For drinking water, Stainless steel, 65 - 75 gr, 300ml	
7		Plates	stainless steel, medium size, round, 22-24 cm, 140-150 gr	
8		Table size spoon	stainless steel, table size, 20-30 gr. 21.54 cm, 1.01 mm	
9		Plastic food cover (plastic box for keeping food)	Plastic box with two handles and two side opening lid: 35cm x 30cm x 24cm (+/-5%) deep: 900 - 1,000gr	
10		Steel Bowl	Size 25cm Diameter, weight 160g-170g, material: stainless steel	
11		Hand Soap Bar	Multipurpose regular Soap Bars, Weight per bar should be 125 gr (+) with minimum 2 years expiry date, suitable for bathing and hand washing	
12		Laundry Soap	Ordinary Soap, Weight per bar 200 (+-) gr, laundry soap shall be free from objectionable Oduor	
13		Gas Cylinder with an attached Stove	5 kg capacity, 4 Kg empty cylinder, with robust single burner 4.77 kg without burner, burner=0.35 kg, 41 cmx 19 cm diameter	
14	Type 1 - Locally Procured	Plastic outdoor Rug (Chetai)	size 9*12 FT, Virgin Polypropylene plastic made, three fold, rectangular	
15		Metallic/Stainless Bucket	Metallic/Stainless steel bucket, Durable handle, Thickness 0.5mm, Weight 800-900(g) Diameter 28 (cm) Height 24.5 (cm), Approx. 10 +- Liter	

Supplementary Items- Family Module

1		Towel	Cotton 100%, dark color, size 40cmx75cm, Minimum Weight:200g, All hems are overlapped	
2		Jerry can	Semi-Collapsible Jerry Can made of food grade LDPE and should not contain toxic elements, 10 liter capacity (+)	
3		Plastic soap dish (soap case)/ Soap Box	Plastic with covering cap, shape rectangular (for 250gm soap, must be able to close)	
4	Type 2	Stiff Yard Broom	Synthetic filled domestic Yard Broom with stiff polypropylene bristles making it suitable for wet and dry rough surfaces. Filled with Black and White 0.76mm polypropylene, trimmed at 89mm. Ideal for sweeping paths and patios. Dimensions: 267mm x 76mm	
5		Tava Pan (Bread Cooking Pot)	37 Cm length, made of aluminum with two handle, weight 700 Gm +-. 38 cm dia	
6		NFI Checklist	A-4 size 120 GSM Paper color printing on both side	
7		Packing Bag	Terylene or nylon material with handles strongly stitched and one zip that are strongly stitched at both ends, size that accommodate all the above items, adjusting kits contents. With Kits name, donor and IOM log on both sides 46 cm x 67 cm x 44 cm	

Emergency Shelter Self-Construction Repair Kit

NO	Items	Specifications	Photo
1	Tarpaulin	4m x 6m (24 sq.m +/- 2%) IOM logo on one Side & USAID on other Side, (GSM -190) 4.57 kg plastic	
2	PVC foil	4mx6m, 250 microns. 2.5 Kg As per IOM sample	
3	Woven Materials (Rope)	Polypropylene; 8mm diameter; Twisted 3-strand minimum; Synthetic material, no recycled fibres. UV stabilized, abrasion resistant, rot and water resistant; Black colour; Tensile strength for 8mm: 1040 kg (limit of use 350kg)	
4	Shovel (without handle)	Shovel weight between 840-850 gr, Size in large two sides 23.5 x 31 cm +/- 5 %, Iron made, the handle should be dry, hard and rounded 155cm wooden without cracks , circumference no less 13 +/- 5 %, cm in narrow side	
5	Hammer	Hammer with plastic handle (hammer which are usable for shutter- ing) with nail removing part. Iron Wight 480-500 grs only iron, and plastic handle 27-28 Cm	
6	Nails	3 different size Nails sizes: 3, 4 and 5 inches 5 0.27 kg 4 0.35 kg 3 0.37 kg	

7	Pick AXE (Without handle)	Long handled, 1.5 kg head, 50 cm pic axe and 85 cm handle size, 1.5 kg only pic axe and 0.5 kg handle weight	
8	Pliers, with wire cutters	Metal cutter with proper fixing length 6cm, and metal handle cover by superplastic, 21L x 6W Centimeters, Color Silver and Weight 200 Grams	
9	Thick work gloves	Accidents and occupational hazards. metallic materials, para-aramid, high-modulus polyethylene materials, and high-density structure material, the supplier should provide the sample before supply to technical committee approval ; large size, pair	
10	Hand-held Saw	Hand held saw with iron blade of 1mm thickness and 60 cm length	
11	Plastering Trowel	Plastering trowel with plastic handle plastering trowel: the blade and tang are welded to form a solid, well constructed trowel taper ground blade offers flexibility and overall balance comfortable plastic handle. size 28x11 cm Features: • Used by masons for levelling, spreading, or shaping substances such as cement, plaster, or mortar, as well as for breaking bricks to shape them or smoothing a mould	
12	Water Level Tool	Precision aluminum alloy water level indicator digital scale horizontal length measurement capability spirit bubble level too, Stanley FatMax spirit Level- 24 - should be 50cm length	
13	Packing Bag	A-4 size 120 GSM Paper, Color print on both side	
14	NFI Checklist	A-4 size 120 GSM Paper, Color print on both side	

Winter Clothing Kit

NO	Items	Specifications	Photo
1	Children Sweater	Woolen, crew neck, five different sizes, 2 for boys (Size A- 2 to 5 years, Size B - 6 to 9 years)and 2 for girls (Size A- 2 to 5 years, Size B - 6 to 9 years), 1 for girl (Size: < 10 years)	
2	Adult Sweater	Woolen, Adult size, one for female crew neck, cardigan with buttons up the front (Large Size) and one for male crew neck (Large Size)	
3	Woman's Winter Shawl	Woolen made for women, 200cmx100cm	
4	Male winter wrap, Patto	Woolen made for men 214 cm x 114 cm	
5	Winter Shoes for adults	Adult winter shoes, water proof, made of rubber, synthetic materials, leather, or a combination of materials one for female (Size-36 to 47) and one for male (Size-39 to 45. 2)	
6	Boots for children	Children winter shoes, water proof, made of rubber, synthetic materials, leather, or a combination of materials four different sizes (Size A- 3 to 5 years, Size B - 5 to 9 years, Size C- 9 to 11 years, Size D - 11 to 14 years)	
7	Socks (pairs)	Warm winter socks, 4 adult size and 8 children size	
8	Children Woolen winter Gloves	4 Different sizes woolen winter/warm gloves (two for girls and two for boys)	
9	Warm Winter Woolen Children Caps	4 Different size, good woolen winter/warm caps (two for girls and two for boys)	
10	NFI Checklist	A-4 size 120 GSM Paper, Color print on both side	
11	Packing Bag	Terylene or nylon material with handles strongly stitched and one zip that are strongly stitched at both ends, size that accommodate all the above items, adjusting kits contents. With Kits name, donor and IOM log on both sides , 35 cm x 54 cm x 31 cm	

Hygiene Kits				
No.	Description	Unit	Quantity	Remark
1	<p>Bath Towel</p> <p>Weight:The towel should have a standard weight of approximately 250 g/m2. This ensures a balance of thickness, softness, and absorbency, while also being durable and quick to dry.</p> <p>Material:Made from 100% high-quality cotton or a cotton blend with a high cotton percentage (minimum 80%). The material must be highly absorbent, soft to the touch, and durable enough to withstand frequent washing and use. Towels must maintain their absorbency and softness after multiple washes.</p> <p>Size:The towel should be of standard bath towel size, measuring approximately 69 cm x 132 cm (27 x 52 inches). Slight variations in size are acceptable within a margin of ± 5%.</p> <p>Texture:Towels must feature a terry cloth or waffle weave texture for maximum absorbency and comfort. The loops in terry cloth must be tightly woven to enhance durability and absorbency. The texture should provide a soft, gentle feel against the skin without being overly rough or stiff.</p> <p>Edges and Finishing:All edges should be double-stitched or hemmed to prevent fraying and ensure long-lasting durability. The finishing should be clean and even, with no loose threads.</p>	Ea	7	
2	<p>Baby Potty</p> <p>Material:Made from durable, nontoxic plastic that is safe for children. The material should be free from harmful chemicals such as BPA and phthalates, ensuring child safety and compliance with relevant safety standards.</p> <p>Dimensions:The potty should have a compact size of 27 cm (L) x 23 cm (W) x 15 cm (H), making it suitable for children of various ages, typically from 1 to 4 years old.</p> <p>Comfort:Designed to be comfortable for kids, with a smooth surface and contoured seating that promotes a positive potty training experience. The height should be appropriate for children to sit comfortably.</p> <p>Durability:The plastic must be durable enough to withstand regular use and cleaning, maintaining its shape and functionality over time without cracking or fading.</p> <p>Design:Features a unique and attractive design that appeals to children, encouraging them to use the potty. Consider offering different colors or fun graphics to make it visually appealing.</p> <p>Shape:The potty should be in a chair shape with a round / square base for stability. It should also include handles on the sides for children to hold onto, providing extra security and support while sitting.</p> <p>Ease of Cleaning:The potty should be designed for easy cleaning, with a smooth surface that can be wiped down easily. It should also have a removable bowl or insert with a cap for quick disposal of waste and hygienic cleaning.</p>	Ea	1	
3	<p>Laundry soap</p> <p>Weight:Each bar of soap should weigh 200 grams or sum of set equivalent to weight, providing a convenient size for home use.</p> <p>Composition:The soap should be 65-72% classic natural laundry soap, made from high-quality fats and oils to ensure effective cleaning power while being gentle on fabrics. The formula must be free from synthetic additives and harsh chemicals.</p> <p>Density:The soap should have a high density, which enhances its durability and longevity, allowing for extended use compared to lower-density soaps.</p> <p>Ingredients:The product should include glycerol, known for its skin-softening properties. This ensures that the soap is gentle on hands and safe for use with delicate fabrics.</p> <p>Detergency:The soap must demonstrate high detergency, effectively removing dirt and stains from various fabrics. It should produce a soft foam that is easy to rinse out without leaving residue.</p> <p>Appearance:The soap should be a homogeneous product in both color and texture, free from any impurities, lumps, or inconsistencies. The surface should be smooth and well-formed.</p> <p>Fragrance:The soap should be infused with natural fruit fragrances, offering a pleasant scent during and after use. The fragrance should be derived from natural sources, ensuring it is safe for sensitive skin.</p>	Ea	7	
4	<p>Plastic bucket</p> <p>Size 19-25 liters Shape tapered pail. Raw material used with Copolymer materials. recycled polypropylene not allowed. Total weight for bucket: minimum 650 gr Container height between 300 mm Top diameter: 300mm - Bottom diameter: 240mm. Color of bucket, different Handle, plastic with same nature of pail, wired thickness 3-6mm. the handle attachment must show strong tenure and solidity</p>	Ea	1	
5	<p>Jerrycan 10 L</p> <p>Collapsible Jerrycans must be composed of reinforced plastic, Material & Colour: Thicker, non-transparent, translucent. Minimum weight: 200g for the 10L Material: Manufactured of certified food grade LDPE should not contain toxic elements set HYG 1 40000 (origin of plastic certified) Must stand by itself, even when filled to 1/4 of its maximum volume. One built-in carrying handle for the 10L type with minimum internal handle dimensions of 9 cm long and 3 cm high, with no sharp edges. A screwable cap with integrated tap for filling and discharge that is linked to the container by a 1mmx120mm polyamide string. String tensile strength of 20N minimum. Strictly no leakage should be found when filled up to the top with water and after being for 10 minutes in upside down position.</p>	Ea	2	
6	<p>Plastic Jug / Aftaba</p> <p>Size: 2-3 liters Material: Durable HDPE plastic, Raw material. Recycled material not allowed Handle: Bold Thickness: 2-3 mm Color: any</p>	Ea	1	
7	<p>Plastic soap-case</p> <p>The soap case lid should close completely; the soap box should have ridges on the bottom to keep the soap from slipping away. Size:4.72 x 3.15 x 1.75 inch (L x W x H) / 12 x 8 x 4.5cm</p>	Ea	1	

8	<p>Shampoo 400ml Ingredients: Silicone-Free, natural source of Oil, foaming agents should display enough detergent reaction (foaming)= lauryl sulfate de sodium, laurylsulfate de sodium, lauryl sulfate d'ammonium, etc. No irritating agent (tested at foaming and wash) Packaging: lightweight and durable Plastic bottles flip-top cap and the cap should be shut securely to prevent leaks and spills. Viscosity should be between 4500 and 9000 cp at ambient temperature (not diluted) PH between 5-7 range, mild and pleasant fragrance. 2+ years expiry dates.</p>	Ea	2	
9	<p>Adult Toothbrush Packaging:Each toothbrush must be individually packaged in a cardboard box to ensure hygiene and protection. Bristles:Type: Soft bristles for gentle cleaning, suitable for sensitive gums. Material: High-quality nylon bristles that are durable and effective for thorough cleaning. Protective Cap: Each toothbrush must come with a protective and durable plastic cap to shield the bristles from contamination. Size:Total Length: Between 180-200 mm (including handle). Brush Head: Approximately 1 inch in length and 0.5 inch in width for effective cleaning coverage. Handle:Material: The handle should be made from durable and lightweight plastic. Design: Ergonomically designed for comfort during use, with a textured surface to prevent slipping when wet.</p>	Ea	3	
10	<p>Child Toothbrush Packaging:Each toothbrush must be individually packaged in a cardboard box to maintain hygiene and prevent contamination. Bristles:Type: Soft bristles, suitable for children's sensitive gums and teeth. Material: High-quality nylon bristles for durability and effective cleaning. Protective Cap: A protective and durable plastic cap should be included to cover the bristles when not in use. Size:Total Length: Between 180-200 mm (including the handle), appropriate for a child's hand and ease of use. Brush Head: Approximately 1 inch in length and 0.5 inch in width for optimal reach in a child's mouth. Handle:Material: Made from durable and lightweight plastic to ensure ease of use by children. Design: Ergonomically designed to fit comfortably in a child's hand, with a non-slip grip to avoid slippage when wet.</p>	Ea	4	
11	<p>Toothpaste (100 ml) Must contain Fluoride (Sodium Fluoride) minimum 14500 ppm, the smell and taste should be pleasant and allow freshness after use, the consistency of paste should be regular. The packaging should not display any defect; a sealing should be present on the extremity of tube; expiry date 2+ years minimum; Abrasive Agents (Calcium Carbonate and Silica) Flavour and Sweeteners are allowed if pleasant (Mint, Sorbitol, or Xylitol) Surfactants (Sodium Lauryl Sulfate) Humectants (Glycerol) Preservatives (Sodium Benzoate) Preservatives like sodium benzoate ward off germs, keeping your toothpaste safe and hygienic for every use. Anti-sensitivity agents (Potassium Nitrate or Strontium Chloride) Packaging:Tube Material: The toothpaste should be packaged in a plastic tube. Cap: The tube must have a screw-on cap to prevent leakage and ensure secure closure. Sealing: The tube must be sealed at the opening (under the cap) to ensure tamper-evidence and hygiene before first use. Labeling: The tube should be printed with branding and product information, including ingredients, usage instructions, expiry date, and manufacturer details. Expiry:The toothpaste must have a minimum shelf life of 2 years from the date of manufacture.</p>	Ea	2	quality
12	<p>Multi-Purpose Soap (140g) Packaging:The soap must be wrapped in paper or plastic to protect it from moisture, dust, and contamination. Packaging should be durable and designed to preserve the quality of the soap during storage and transportation. Fragrance:Variety of fragrances including apple, floral, and other pleasant scents. smell will be tested Ingredients:Sodium Palmate,Sodium Palm Kernelate,Ecteronic Acid,Ci 77891 (Titanium Dioxide): for whitening properties,Ci 77492 (Iron Oxide): for coloring,Ci 77491 (Iron Oxide): for coloring,Aqua (Water),Parfum (Fragrance),Sodium Chloride (Salt),Glycerine,Palm Kernel Acid,Tocopherol Acetate (Vitamin E),Tetra Sodium Etidronate: A chelating agent to improve product stability. detergent and concentration of foaming agent should allow foaming properties non irritating agents, after washing (tested) Features:Basic Cleaning: Suitable for daily hygiene and skin cleansing. Non-medicated: No active medicinal ingredients. Handmade: Ensuring artisanal quality, transparency in manufacturing processes. No Pork Fat: Free from any pork-derived ingredients. Expiry:Minimum shelf life of 2+ years from the date of manufacture. Quality:Good quality soap: Durable, long-lasting, and capable of maintaining its texture and efficacy during the entire shelf life.</p>	Ea	10	

13	<p>Packing Bag: Should have IOM logo (25X15), handle, and a zipper Colour: dark blue Fabric of bag: Nylon, Mesh, or canvas. Handles attachment points should be Reinforced stitching or a sturdy also the handles should be easy to attach and detach from the bag. Zipper:A high-quality zipper should be used, ensuring smooth operation and secure closure of the bag. Zipper Quality Check: The zipper will undergo a stress test during sample inspection, conducted by the technical team, to ensure it performs well under pressure. Knitting Quality:The bag should feature good-quality knitting, ensuring the fabric is tightly woven for enhanced strength and durability and water proof (bag external fabric or internal double layer) . Knitting must be even and consistent throughout the bag to prevent tearing and ensure longevity. Dimensions:Size: Measures 70 cm x 40x 40 cm approximately, providing sufficient space to contain all HK + MHM (Menstrual Hygiene Management) items.</p>	Ea	1	
14	A4 laminated page content list, 1 page for Hygiene kit	Ea	1	
15	<p>Measuring Jug Material:Made of durable plastic that is food-graded and resistant to breaking or shattering. recycled material not allowed; Capacity:Minimum Capacity: Approximately 1 liter (or 1000 ml) based on the markings visible on the jug. Design Features:Measurement Markings: Clearly marked measurement increments along the side of the jug, indicating volumes in 100 ml increments up to 1000 ml. Handle: Equipped with a sturdy handle for a secure grip during use.</p>	Ea	1	
Total Price for Hygiene kits				
MHM Items				
No.	Description	Unit	Quantity	Remark
1	<p>Hairbrush: Hairbrush "Shape: Oval or rectangular, with a flat or curved surface. Handle: Straight Color: any size: 3-5 inch in length and 1-2 inch in width, handle should be plastic, non-slip the shape should be ergonomic" Strength Testing: The technical team will apply pressure to check the strength and durability of the handle during quality checks. Brand Note:The hairbrush should not be from any Iranian brands.</p>	Ea	3	
2	<p>Nail Clipper Construction:The bolt must be designed to allow the leverage part to rotate 360 degrees around the bolt for enhanced functionality and ease of use. Blades:The cutting blades should consist of two pieces of metal, each approximately 2 inches long. Material: Made of high-quality stainless steel, ensuring durability and resistance to rust and corrosion. Cutting Edge: The cutting blade should be sharp and precise, featuring either a curved or straight edge for effective nail trimming. Size:Medium Size: Approximately 80 mm in length for comfortable handling and usability. Material:Stainless Steel: The entire clipper should be made of chromium-plated stainless steel for added strength and to prevent tarnishing. The metal should not be very thin to ensure the strength and longevity of the blades. Features: Strong Blades: The blades should be robust and capable of cutting through nails cleanly without bending or breaking.</p>	Ea	2	
3	<p>Multi-Purpose Soap (140g) Packaging:The soap must be wrapped in paper or plastic to protect it from moisture, dust, and contamination. Packaging should be durable and designed to preserve the quality of the soap during storage and transportation. Fragrance:Variety of fragrances including apple, floral, and other pleasant scents. smell will be tested Ingredients:Sodium Palmate,Sodium Palm Kernelate,Ecteronic Acid,Ci 77891 (Titanium Dioxide): for whitening properties,Ci 77492 (Iron Oxide): for coloring,Ci 77491 (Iron Oxide): for coloring,Aqua (Water),Parfum (Fragrance),Sodium Chloride (Salt),Glycerine,Palm Kernel Acid,Tocopherol Acetate (Vitamin E),Tetra Sodium Etidronate: A chelating agent to improve product stability. detergent and concentration of foaming agent should allow foaming properties non irritating agents, after washing (tested) Features:Basic Cleaning: Suitable for daily hygiene and skin cleansing. Non-medicated: No active medicinal ingredients. Handmade: Ensuring artisanal quality, transparency in manufacturing processes. No Pork Fat: Free from any pork-derived ingredients. Expiry:Minimum shelf life of 2+ years from the date of manufacture. Quality:Good quality soap: Durable, long-lasting, and capable of maintaining its texture and efficacy during the entire shelf life.</p>	Ea	5	
4	<p>Female Underwear Large size Material:Made from 50% cotton minimum, ensuring softness, breathability, with elastomer fabric mixed fabric (the fabric should be elastic, but robust and good quality) Pack Size: Pack of 6, Design Features:Color Options: A mix of colors or patterns in each pack. Elastic Waistband: Features a soft, stretchy waistband for comfort without pinching or irritation. Durability:Designed to withstand regular washing and wearing, maintaining shape and softness over time. Pre-shrunk fabric to prevent size changes after washing.</p>	Ea	1	

5	<p>Female Underwear Medium size Material:Made from 50% cotton minimum, ensuring softness, breathability, with elastomer fabric mixed fabric (the fabric should be elastic, but robust and good quality) Pack Size: Pack of 6, Design Features:Color Options: A mix of colors or patterns in each pack. Elastic Waistband: Features a soft, stretchy waistband for comfort without pinching or irritation. Durability:Designed to withstand regular washing and wearing, maintaining shape and softness over time. Pre-shrunk fabric to prevent size changes after washing.</p>	Ea	1	
6	<p>Female Underwear Small size Material:Made from 50% cotton minimum, ensuring softness, breathability, with elastomer fabric mixed fabric (the fabric should be elastic, but robust and good quality) Pack Size: Pack of 6, Design Features:Color Options: A mix of colors or patterns in each pack. Elastic Waistband: Features a soft, stretchy waistband for comfort without pinching or irritation. Durability:Designed to withstand regular washing and wearing, maintaining shape and softness over time. Pre-shrunk fabric to prevent size changes after washing.</p>	Ea	1	
7	<p>Mashkhola: Mashkola (Hot Water Bag) 34x18 cm Rectangular Rubber Hot Water Bag, " "Basic apparatus should be made of 100% natural rubber, Smooth surface and a soft, plush cover. Cap: Should be plastic, secure leak proof cap, retain heat for at least 2-3hr. Size: 34 X 18 cm 1-2 Liters Holding water Capacity. Easy to hang and carry. Natural pain relief."</p>	Ea	1	
8	<p>Sanitary Pads Type:Cotex/Sanitary Pads, designed for disposable use. Size:Normal size, suitable for regular menstrual flow. Design Features:Wings: Equipped with sticking wings for better security and to prevent leakage. Adhesive: Each pad should have a strong adhesive backing to keep it securely in place during use. Absorbency: Designed for effective absorption with different thick layers (cellulose) with a soft, comfortable top layer to reduce irritation. Packaging:Sold in a box of 12, providing enough supply for regular use. Each pad should be individually wrapped for hygiene and convenience. Material:Made from soft, breathable materials to ensure comfort and minimize the risk of irritation. Features:Odor Control: May include features for odor control, enhancing comfort and confidence during use. Dermatologically Tested: Should be dermatologically tested to ensure safety for sensitive skin. Brand Note:The pads should not be from any Iranian brands.</p>	Ea	4	
9	<p>Soft Cotton Cloth Material:Made from 100% soft cotton, ensuring a gentle texture and absorbant suitable for various applications. Dimensions:Size: Each piece measures 1 meter x 2 meters, providing ample coverage for a variety of uses. Color:Available in dark colors, which can include shades like navy, dark brown, black, or deep green, depending on availability. Knitting:Knitted Fabric: The cloth should be tightly knitted to provide added stretch and flexibility, enhancing comfort and usability. Soft Texture: The fabric should be soft to the touch, making it ideal for clothing, household uses, or crafting. Features:Breathable: The cotton material allows for good air circulation, enhancing comfort during use. Durability: Strong and durable, suitable for washing and long-term use without significant wear or fading. Care Instructions:Machine washable; recommend washing in cold water and tumble drying on low or air drying to maintain fabric quality.</p>	Piece	4	
10	<p>Packaging Bag Material:Nylon, mesh or canvas; The bag should feature good-quality knitting, ensuring the fabric is tightly woven for enhanced strength and durability and water proof (bag external fabric or internal double layer) . Knitting must be even and consistent throughout the bag to prevent tearing and ensure longevity. Dimensions:Size: Measures 40 cm x 30x30 cm, providing sufficient space to contain all MHM (Menstrual Hygiene Management) items. Design Features:Strap: Equipped with a sturdy strap for easy carrying and handling. Closure: The bag may feature a secure closure mechanism (e.g., zipper or Velcro) to keep contents safe. Color:Khaki color, providing a neutral and practical appearance. Branding:IOM Logo: The bag should prominently display the IOM logo to ensure clear branding (15X15cm) Usage:Designed to securely hold and organize MHM items, making it practical for distribution or personal use. Durability:The bag should be made to withstand regular use, maintaining its shape and integrity over time. Care Instructions:Easy to clean; can be wiped down or hand-washed as needed to maintain cleanliness.</p>	Ea	1
