## Note:

- ⇒ Based on the field information the Climate recently has been Changed in Badkshsan, so the supplier obligated to deliver and distributed the mentioned saplings to the specified/target districts/communities (Wardoj with two distribution points) of Badkshsan Province before end of January 2025.
- ⇒ Supplier should provide the saplings from Badkshsan & neighbor provinces of Badkshsan like, Takhar, Kunduz nurseries due to it would be good adaption with local climate, soil, water and will give positive results
- ⇒ All the certified Sapling should have a particular label of MAIL and ANNGO:
- ⇒ Before signing the contract with selected supplier IFRC & ARCS technical staff will do a nursery inspection to make sure the saplings are based on technical specification & saplings are without any diseases.
